Expanding the Economic and Innovation Opportunities of Spectrum through Incentive Auctions

Dear Ms. Dortch:

On September 25, 2013, Tom Sugrue, Senior Vice President of Government Affairs, Steve Sharkey, Chief Engineering and Technology Policy, Federal Regulatory, and the undersigned spoke with Ruth Milkman, Chief of the Wireless Telecommunications Bureau, and John Leibovitz, Deputy Chief of the Wireless Telecommunications Bureau, regarding the above-referenced proceedings.

During the communication, T-Mobile USA, Inc. ("T-Mobile") asked Commission staff about the impact on the planned auction of the 1915-1920 MHz and 1995-2000 MHz bands (together the "H Block") of the proposal by DISH Network Corporation ("DISH) to take a period of up to thirty (30) months to elect whether to use its 2000-2020 MHz AWS-4 band spectrum for uplink or downlink use.

With respect to GN Docket No. 12-268, T-Mobile encouraged the Commission to engage in improved outreach to broadcasters, noting the importance of strong broadcaster participation in the incentive auction so that the Commission can achieve the revenue goals set by Congress in the Spectrum Act.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced docket. Please direct any questions regarding this filing to the undersigned.

Respectfully submitted, /s/ Kathleen O'Brien Ham
